

Course Overview

This is a two-day, hands-on intensive workshop. Participants will learn compensatory hands-on techniques for tonic bite, slow oral transit, tongue thrust, and gag. The participants will practice over 50 specific intervention strategies for improving facial muscle function for eating and speech. Additional topics of discussion may include: goal writing, diet texture progression, tube to oral issues, adaptive mealtime utensils, oral hygiene issues, medication administration issues, oral function for individuals with trachs, facilitating improved articulation through oral motor techniques, research issues, videofluoroscopy issues for motorically involved individuals, and additional topics of importance as determined by the participants.

Course Objectives:

Upon completion Participants will be able to:

- 1) Demonstrate assessment battery for determining orofacial movement patterns using the Beckman protocol.
- 2) Demonstrate compensatory handling techniques.
- 3) Demonstrate oral motor interventions and treatment techniques.
- 4) Recognize how to screen for potential referral candidates.
- 5) Identify the results of the techniques discussed.

Preparation:

You will be working with the fragile tissues of the oral area; for safety reasons, therapeutic nail length is a must. Attendees are asked to bring a large handheld mirror. A DVD of a case study is welcomed for discussion.

Registration Fee

\$450 – Group or Individual Early Registration: Per person rate. 30 days or more in advance.

\$475 – Group Registration: Per person rate. Two (2) or more therapists from the same facility registering at the same time on the same check, money order, or credit card, less than 30 days in advance.

\$500 – Standard Registration: One (1) therapist registering less than 30 days in advance.

This presentation will focus exclusively on Beckman Oral Motor Assessment and Intervention and will not include information on other similar or related services.

Day One

8:00am-10:00am

Course Overview, Mealtime Myths, Neuroanatomy, Impact of Sensory System, Impact of Gravity on Function, Oral Patterns

10:00am-10:15am

Break (refreshments provided)

10:15am-12:00am

Case Studies-Mealtime Job Aides— Position, Texture, Temperature, Consistency, Utensils

12:00pm-1:00pm

Lunch

1:00pm-3:00pm

Compensatory Techniques—Tonic Bite, Coughing, Gagging/Vomiting (hands on practice)

3:00pm-3:15pm

Break (refreshments provided)

3:15pm-4:15pm

Loss of Food/Fluid, Delayed Oral Transit Assessment & Intervention Videos— Infant and Adult

4:15pm-5:30pm

Day Two

8:00am-10:00am

Assessment & Intervention Techniques for Oral Structures-Lips, Gums, Tongue (hands on practice)

10:00am-10:15am

Break (refreshments provided)

10:15am-12:00pm

Assessment & Intervention Techniques— Cheeks, Jaw (hands on practice)

12:00pm-1:00pm

Lunch

1:00pm-3:00pm

Assessment & Intervention Techniques— Tongue, Hard Palette, Soft Palette (hands on practice)

3:00pm-3:15pm

Break (refreshments provided)

3:15pm-4:00pm

Continued Assessment & Intervention Techniques and Documentation (hands on practice)

4:00pm-5:30pm

Home program, Maintenance, Tube to Oral Transition, Discussion, Post Test
